Summary

Senior Fullstack Engineer with 4 years of experience in JavaScript, TypeScript, and frameworks like Next.js, React, React Native, Node.js, and Nest.js. Proficient in building scalable web and mobile applications, with expertise in working with databases such as MongoDB and PostgreSQL. Skilled in cloud deployments using AWS services like EC2, Lambda, and RDS, ensuring efficient and reliable solutions. Adept at leveraging modern tools and technologies to create secure, maintainable, and high-performing systems. A collaborative and detail-oriented professional dedicated to delivering impactful applications and driving technical excellence.

Skills

- **Programming Languages**: JavaScript, TypeScript
- **Frontend Frameworks**: React, Next.js, React Native
- **Backend Frameworks**: Express, Nest.js
- **Databases**: MongoDB, PostgreSQL
- **Cloud Platforms**: AWS (EC2, Lambda, RDS)
- **Development Practices**: Scalable architecture design, secure coding, performance optimization
- **Tools & Technologies**: Node, Git, Docker, REST APIs, CI/CD pipelines
- **Soft Skills**: Collaboration, problem-solving, attention to detail, technical mentorship

---

Experience

Fullstack Software Engineer
Divverse LLC, Round Rock, Texas, USA (Remote)
November 2022 - Present

- Developing web and mobile applications using React Native and Next.js, delivering scalable and user-centric solutions.
- Building and integrating cloud-based servers using AWS Amplify to ensure secure and efficient backend operations.
- Collaborating with cross-functional teams to deliver custom software solutions for third-party organizations.
- Implementing best practices in code quality, including CI/CD pipelines and thorough code reviews.
- Resolving complex technical issues, ensuring optimal application performance and user satisfaction.

Fullstack Software Engineer
Buzzline, USA (Remote) - Contract
May 2022 - November 2022

- Developed and managed modifications to web and mobile applications using React Native and Node.js, ensuring seamless functionality and performance.
- Maintained and optimized backend servers to support application requirements and enhance system reliability.
- Collaborated with cross-functional teams to integrate new features and resolve technical issues promptly.
- Implemented and tested new functionalities, ensuring a smooth user experience across mobile platforms.
- Provided technical support and troubleshooting to resolve complex issues faced during the development process.

Software Engineer (Tech Lead)
Kyydin Mobility, Helsinki, Finland (Remote)
January 2022 - April 2023

- Led the development and management of web and mobile applications, utilizing React Native and Node.js to deliver high-quality solutions.

- Oversaw the architecture and deployment of backend servers, ensuring performance, security, and scalability.
- Guided and mentored team members, providing technical support and resolving complex issues faced during development.
- Collaborated with product managers and stakeholders to align development efforts with organizational goals and user needs.
- Ensured code quality and best practices through regular code reviews and implementation of efficient development workflows.

Fullstack Software Developer
Codebot Technologies Limited, Port Harcourt, Nigeria.
July 2021 - January 2022

- Develop and maintain web applications using Next.js and Node.js, ensuring high performance and scalability across both client and server sides.
- Mentor junior developers, providing guidance and support to help them grow their technical skills and contribute to project success.
- Collaborate with cross-functional teams to implement new features, troubleshoot issues, and optimize application performance.
- Lead code reviews and ensure adherence to best practices, promoting clean, maintainable, and efficient code.
- Stay updated with the latest industry trends and technologies to continuously improve development processes and system architecture.

Education

Bachelor of Engineering
Materials and Metallurgical Engineering
Federal University Of Technology Owerri
2018
